

BDC Advantage

Pricing, analytics and benchmarking for all public and private BDCs and their underlying investments. Proprietary tools and analysis made specifically for BDCs and their investors.

FEATURES

- ALL BDC filings 2000-present
- Cross-asset mapping across portfolio companies
- Screening by industry, investment type, deal size and more
- Fair value mark comparison across BDCs, other funds and secondary market
- Benchmarking to customizable peer groups
- New investment identification done in house
- Daily pricing on middle market loans
- Proprietary portfolio analytics
- BDC fee analysis

BDC Advantage was developed in partnership with a group of BDCs seeking to outsource BDC data aggregation, direct lending analytics and loan pricing across the thousands of US middle market companies currently held as portfolio companies.

AdvantageData provides unmatched insight into the BDC space by leveraging tools perfected through over 20 years of serving the sell-side but using data specific to the BDC and private credit space.

See why BDCs, direct lenders, BDC analysts and investors all use AdvantageData.
